Open Access Aetna SelectSM plan

Your choice of network doctors without referrals

aetna[®]

A plan that lets you choose from quality network doctors

You can visit any doctor in our network — no referral needed

You don't have to choose a **primary care physician (PCP)** either, but you may want to. That's because PCPs do more than give you a checkup. They know your medical history, and they can help direct your care.

This plan also gives you access to tools, tips, programs and services. They can help you find network doctors, estimate costs and more.

Looking for your exact copay amounts? Let's walk through this plan and see what's covered.

All employer health plans are different. This booklet gives a general idea of how the Open Access Aetna Select plan works.

For details like copays and what's covered, check your Summary of Benefits and Coverage document. It should be in your enrollment kit. If you don't have it, ask your employer.

Your options	Pick your doctor	How it works
PCP option	Choose any PCP from our network. Again, choosing one is not necessary, but you might find it helpful to have one. You can change your PCP anytime. Just call Member Services at the number on your ID card. Or do it online through your member website.	Your PCP will: <ul style="list-style-type: none">• Give you checkups or treat you when you're sick or hurt• Get approval from us before giving you certain services• File claims for you With this option, you may pay less out of pocket. Your copay may be lower when you visit your PCP for care. A copay is a fixed amount you pay at the time of a visit.
Any network provider	Visit any network doctor or specialist without a referral. Network doctors contract with us to offer rates that are often lower than their regular fees. A specialist is a doctor who focuses only on treating certain conditions or diseases. For example, a dermatologist treats skin conditions. A cardiologist treats heart problems.	The network doctor or specialist will: <ul style="list-style-type: none">• Provide care• Get approval from us before giving you certain services• File claims for you Visiting a network doctor may cost more than visiting your PCP. And you may have a higher copay to visit specialists.

You need to see network providers for this plan to cover and help pay for care.* Providers are professionals and facilities that provide health care services. Doctors, hospitals and labs are examples of providers.

*In case of emergency, call 911 or your local emergency hotline, or go directly to an emergency care facility.

Health insurance plans are offered, underwritten and/or administered by Aetna Life Insurance Company (Aetna).
